

## OKLAHOMA STATE UNIVERSITY FALL SEMESTER HEADCOUNT ENROLLMENT AND PROJECTIONS

Enrollment at Oklahoma State University showed yet another significant increase for the Fall 2012 semester with a headcount of 25,544. This represents an all-time high in the OSU-Stillwater/Tulsa enrollment. The continued increase in OSU enrollment was again buoyed by the recruitment efforts of the Office of Undergraduate Admissions, and consistent and significant increases in the freshmen classes OSU has enrolled the past three years. OSU welcomed 4,289 new freshmen, which constitutes an increase of 393 over Fall 2011 and is our largest freshmen class ever. This continues the trend of larger freshmen classes with the Fall 2012 new freshmen class being 40% larger than just four years ago. This number of new freshmen contributed to an overall increase in undergraduates of 1,121.

The projections for future years presented in this section are mathematical models based on past trends in applications, admitted students, and subsequent enrollments, as well as retention rates and forecasts of high school graduates. Forecasts for Oklahoma high school graduates show decreasing numbers over the next three years. Because the OSU freshman class is made up of approximately two-thirds Oklahoma residents, these forecasts are the primary source of projection numbers for freshman enrollment. The forecasts of Oklahoma high school graduates used in this section are based upon information from the Oklahoma State Department of Education and the State Regents for Higher Education. They assume that demographic trends such as immigration into and emigration out of the state will remain relatively constant.

Graduate enrollment at OSU also increased to 5,062 in Fall 2012. This represents an increase of almost 200 over Fall 2011 and also constitutes the largest number of graduate students ever enrolled at OSU.

In summary, several factors affect enrollment projections at OSU. Some of these factors depend on policy decisions originating with the Oklahoma State Regents for Higher Education and others depend on recruitment policies set by OSU administration. The impact of these policies, as well as changing admissions, enrollment, retention, scholarship, and recruiting practices, all have a role in determining future enrollment at Oklahoma State University. The Office of Institutional Research & Information Management will continue to monitor developments in these areas and assess their impact.

#### OKLAHOMA HIGH SCHOOL GRADUATES AND ACT TEST-TAKERS 2002-2003 THROUGH 2011-2012 ACTUAL

| Year       | HS Grads | ACT Takers | Percent |
|------------|----------|------------|---------|
